BACKGROUND OF THE INVENTION

RECEIVED

JUN 14 2001

Technology Center 2100

1. Field of the Invention

This invention pertains generally to memory management systems. More particularly, the invention is an operating system and method for inheriting memory management policies in computers, embedded systems and other data processing systems and which further provides enhanced memory management.

25

2. The Prior Art

30

In embedded systems and other data processing systems and computers, operating systems provide the basic command function set for proper operation of the particular device. In routers, for example, router operating systems (ROS)
